**Budapest University of Technology and Economics** is considered the world's oldest Institute of Technology which has university rank and structure. It was the first institute in Europe to train engineers at university level. The legal predecessor of the university was founded in 1782 by Emperor Joseph II, and was named Latin: Institutum Geometrico-Hydrotechnicum ("Institute of Geometry and Hydrotechnics").

Training courses are provided in five languages: Hungarian, English, German, French and Russian.

The ECTS credit system was introduced in 1995 and helps students to enroll in the student exchange program of the European Union (Erasmus+).
