

Title of Course	English Technical Terminology in Civil Engineering		
Semester	Autumn/Spring		
Teaching Hours per Course:	Total	- Lectures:	- Tutorials:
	30	0	30
ECTS Credits	2		
The content of education			
Aims of Course	The aim of education process is to rehearse and acquire new vocabulary in the field of civil engineering: architecture, building materials, construction, foundation, building site management, OSH, installations. Student learns to understand basic technical vocabulary, read technical documentation, contracts, calculations etc., presentation of one's work in English.		
Program	E1-3 – Modern methods of vocabulary studying; Presentation skills improvements; Bibliography and copyrights; Civil engineering journals. E4-14 – Presentations and civil engineering vocabulary training on various topics: architecture, building materials, construction, foundation, building site management, OSH, installations.		
Conditions of completion	<p>Grading Standard: The basis for passing is:</p> <ul style="list-style-type: none"> • the presence in all classes, • the presentation for individual topic relating to civil engineering aspects (min. 9.6 of 24 points), • the essay for individual topic relating to civil engineering aspects (min. 6.4 of 16 points), • a positive evaluation of the vocabulary test (min. 24 of 60 points). <p>A student may be contacted with the teacher by e-mail and consultations</p> <p>Grade (Total Points) 2,0 (0-55 p.); 3,0 (55,5-64,5 p.); 3,5 (65-73,5 p.); 4,0 (74-82,5 p.); 4,5 (83-91,5 p.); 5,0 (92-100 p.)</p>		
Teacher	Piotr Dolny, Ph.D.
